## SomnoMed® Training Day Sleep – How Dentists can improve patients overall health

SomnoMed® training including key speaker Dr Aditi Desai  
President of the British Society of Dental Sleep Medicine.

Presenting Oral Appliances for the treatment of Sleep Related  
Breathing Disorders such as Snoring and Obstructive Sleep  
Apnoea. **5 CPD points.**

The day will include presentations :-

- Background knowledge on SRBD, overview of treatment options, why it is important to treat, how dentists are ideally placed to help and what options they have.
- How to promote your Dental Sleep Medicine service in practice and beyond, building relationships with other sleep professionals, GPs and GDPs to increase your work flow.
- Screening of patients, and how to ensure the correct treatment option.
- SomnoMed® as a company and our range of products such as Fusion, Flex, Edentulous, SomGauge®.
- The advantages of offering SomnoDent® devices and a hands on practical session using the SomGauge®.
- Hints and tips for best device including bite registration.

For Dentists and PMs who are interested in either promoting this service in their practice or having a referral pathway to help patients improve their health.

Location :- 201 Borough High St

Date:-Saturday Jan 12<sup>th</sup>

Time:- 09:30 – 15:00

Course Fee :- £140
